PROFILE

Software Engineering undergraduate at Daffodil International University building a foundation in cyber security, systems and automation. I practise security fundamentals in Kali Linux, shell automation on Ubuntu and run a triple-boot workstation to understand how systems really behave. Hands-on with C++, MySQL and Arduino-based embedded projects, backed by NTVQF Level-03 certification in computer operation and IT support.

EDUCATION

B.Sc. in Software Engineering	Daffodil International University · 2024 – Present · CGPA 3.25 / 4.00
Higher Secondary Certificate	Govt. Bangabandhu College — Dhaka Board, Science · 2022 · GPA 4.50 / 5.00
Secondary School Certificate	Mirpur Bangla School & College — Dhaka Board, Science · 2020 · GPA 4.67 / 5.00

TECHNICAL SKILLS

Programming & Databases	C++, SQL, MySQL, Database Design, Programming Fundamentals, Arduino C++
Cyber Security & Systems	Kali Linux, Security Fundamentals, Linux Hardening Basics, Triple-boot Configuration, Ubuntu Automation, Windows 11
Tools & AI Workflow	Prompt Engineering, ChatGPT, Google Gemini, Arduino IDE, MS Office Suite, Hardware Troubleshooting
Soft Skills	Problem Solving, Cross-functional Teamwork, Time Management, Resource Optimization, Quick Learning

PROJECTS

Automated Car Parking System	Arduino, C++
<i>Embedded Systems · Academic Project</i>	
- Built a fully automated entry/exit system that removes manual gate handling — sensors detect vehicles, logic decides, barriers respond. - Sensor-based vehicle detection using IR and ultrasonic arrays for reliable entry and exit reads. - Real-time slot monitoring that surfaces availability and cuts average parking time. - Hand-designed circuit paired with optimised C++ for near-zero-latency hardware handshake.	
Triple-Boot Security Lab	Kali, Ubuntu, Win 11
<i>Self-directed lab · Ongoing</i>	
- Partitioned triple-boot workstation used to study bootloaders, GRUB and system configuration. - Shell-driven automation experiments and scheduled tasks on Ubuntu. - Practising core offensive and defensive security concepts inside Kali Linux.	

EXPERIENCE

Operations Support	6 Months
<i>GlobalTech IT — Mirpur-11, Dhaka 1216</i>	
- Collaborated with cross-functional teams to streamline technical support workflows. - Resolved client inquiries efficiently while documenting recurring issues. - Handled hardware diagnostics, OS setup and end-user system maintenance.	

CERTIFICATIONS

NTVQF Computer Operation — Level 03	Computer operation, office productivity and digital workflows.
NTVQF IT Support — Level 03	Hardware diagnostics, end-user support and system maintenance.

ADDITIONAL INFORMATION

Present Address	Mirpur-11, Dhaka 1216
Permanent Address	Guhlaxmipur, Faridpur Sadar-7800, Faridpur
Languages	Bengali — native fluency; English — fluent (reading, writing, listening)
Interests	Cyber security, Linux systems, embedded automation
